Profile

Full-stack Web Developer with 1.6 years of experience in building web applications, including Hospital Information System (SIMRS) and Geographic Information System (GIS) projects. Experienced in working with APIs, Linux, writing complex queries, and optimizing SQL database performance. Familiar with client communication, teamwork, and project coordination. Completed 15+ web development dummy projects. Always eager to learn and enjoy solving technical problems.

Experiences

PT.Asia Sistem Indonesia   December 2024 – June 2025
Programmer

- Analyze business needs and translate them into technical specifications
- Identify and resolve performance bottlenecks
- Developed web-based Geographic Information System (GIS) application.
- Maintain regular communication with client, providing updates on project progress concerns
- Working with Active Directory, Nodejs, Reactjs, Postgresql.

PT.Subaga Digital Medika   August 2023 – July 2024
Fullstack Web Deveoper

With experience in the hospital, I've served as a Fullstack Developer, ensuring the successful implementation and maintained web-based Hospital Management Information System (SIMRS), covering modules such as Medical Records & Patient Services, Finance, Facilities & Infrastructure, Pharmacy Warehouse, Human Resources, and Management. My responsibilities include:

- Understanding the hospital workflow and Training users.
- Diagnosed and resolved application bugs, feature customization, and enhanced system performance.
- Integrating with E-Klaim BPJS API for national health insurance claim processing and Implementing bridging for integration of medical devices with hospital systems.
- Working with Laravel, Angular, and PostgreSQL, Linux.

Alterra Academy   February 2022 – May 2022
  React JS Front-End Engineer (Internship)
  I also participated in a Study independent Program at Kampus Merdeka. I asked many questions and learned about web development. My daily tasks included:

- Learned and applied front-end technologies: React.js, Redux, GraphQL, Figma, Git, and deployment tools.
- Built multiple mini-projects
- Completed daily coding tasks

PT.Gama Integra Informatika   September 2021 – January 2022
  Frontend Web Developer (Internship)
- Translated UI/UX wireframes into functional and interactive user interfaces.
- Integrate APIs provided by the backend team to display dynamic content.
- Devlop the frontend using the Angular framework
- Collaborate with the System Analyst, UI/UX designer, and Backend
- Participated in mentorship sessions covering topics such as System Analysis, UI/UX Design Principles, Git & GitHub, CI/CD workflows, Angular, and Lumen with JWT authentication.

Universitas Teknologi Yogyakarta   September 2021 – January 2022
  Asistant Lecturer
- Instructed a web programming lab course
- Prepared and delivered weekly instructional materials on HTML, CSS, JavaScript, PHP, jQuery, and MySQL.
- Designed, assigned, and assessed weekly programming assignments to enhance student understanding and application.

SEVEN INC JOGJA   Aug 2021 – Dec 2021
  Web Programmer (Intership)
- Working with Ci4
- Fixing bugs at Djuragan.com application

Project

PT.Sinergi Digital Solusindo   June 2022 – June 2022
  Application Go-Live Trainer (Freelance)
  When I was a bachelor's student, I took a job as a freelance trainer for one week at PT.Pertamina Lubricants, based on DSP Batakan, Balikpapan. My daily job was to:

- Delivered on-site training for employees at PT. Pertamina Lubricants (DSP Batakan, Balikpapan) on the use of WMS (Warehouse Management System) applications during system go-live.
- Guided staff in executing inbound and outbound warehouse processes using the WMS (Warehouse Management System) platform.
- Identified, documented, and reported system issues or user challenges to WMS customer support for timely resolution.

Skills

Laravel, CodeIgniter, NodeJS, Springboot, ReactJS, Angular, JavaScript, PHP, Java, MySql, PostgreSql, CSS, Nginx, Linux.

Education

Universitas Teknologi Yogyakarta (Sep 2018 - Oct 2022)
Bachelor's Degree in Information System – GPA 3.26

Certifications

- Belajar Membuat Aplikasi Back-End untuk Pemula (Dicoding)

- Belajar Fundamental Front-End Web Development (Dicoding)

- Microsoft Office Specialist: Word 2016 (Microsoft)
